---

## WORK EXPERIENCE

---

### Engati

Nov 2023 – Jun 2024

Software Developer Intern

- Designed and developed a robust Chrome extension to automate WhatsApp broadcasts directly from Google Sheets, optimizing outreach and boosting productivity.
- Improved microservices and added features to send WhatsApp message status packets to custom URLs and headers.
- Enabled skipping the data input form for WhatsApp, Instagram, and Messenger bots, enhancing user experience.

### HighRadius Corporation

Jan 2022 – Apr 2022

Product Development Intern

- Built an AI-enhanced Fintech B2B invoice management web app with React.js, JDBC, Java, Servlet, and MySQL, featuring responsive dashboards, invoice searching, and CRUD operations.

## PROJECTS

---

### PyLoadBalancer

Sep 2024 – Oct 2024

- Developed a custom load balancer, primarily using a round-robin strategy for traffic distribution, with YAML configuration to enable scalable backend server management and simplify server additions and updates. [Github](#)
- Tech Stack:** Python, YAML

### Social Media App

Jan 2024 – Jan 2024

- Designed and worked on a social media web application with features including friend connections, posts and stories, likes, comments, public/private profiles, and session management, while leading a team of three. [Demo](#) [Gitlab](#)
- Tech Stack:** Spring-Boot, React, Neo4j, MariaDB, MongoDB, JWT, Redis, BCryptPasswordEncoder

### Car Parking Server-Side Application

Nov 2022 – Dec 2022

- Developed RESTful APIs for an automated car parking system, enabling slot management, and status retrieval. [Github](#)
- Tech Stack:** NodeJS, NestJS, Typescript

### Todo Application

Jul 2023 – Jul 2023

- Built a CLI Todo application with MVC architecture, enabling efficient creation, searching, and deletion of tasks. [Github](#)
- Tech Stack:** Golang, Postgres

## TECHNICAL SKILLS

---

**Languages:** Java, NodeJS, Python, Golang

**Frameworks:** Spring Boot, ExpressJS, NestJS, React, HTML, CSS, AWS

**Database:** Postgres, MongoDB, Redis

## EDUCATION

---

Kalinga Institute of Industrial Technology, Bhubaneswar

Jun 2019 – Jul 2023

Bachelor of Computer Science and Engineering; CGPA: 8.75/10
